Recognizing the habit ways to get this books **Europe Since 1945 A Concise History** is additionally useful. You have remained in right site to begin getting this info. acquire the Europe Since 1945 A Concise History associate that we pay for here and check out the link.

You could buy guide Europe Since 1945 A Concise History or acquire it as soon as feasible. You could quickly download this Europe Since 1945 A Concise History after getting deal. So, as soon as you require the books swiftly, you can straight acquire it. Its for that reason completely easy and appropriately fats, isnt it? You have to favor to in this song

The European Economy Since 1945 Apr 30 2020 However, this inheritance of economic and social institutions that was the solution until around 1973--when Europe had to switch from growth based on brute-force investment and the acquisition of known technologies to growth based on increased efficiency and innovation--then became the problem.

American Art Since 1945 Sep 04 2020 Joselit traces and analyzes the diversity and complexity of postwar American art from Abstract Expressionism to the present clearly and succinctly in this groundbreaking survey. 183 illustrations.

Sculpture Since 1945 Jun 01 2020 Since 1945 the modern revolution in sculpture has gathered pace, and sculpture has now ceased to be the fixed category it once was. In recent decades the modernist idea of sculpture across the UK, America, and Europe, has been challenged, and issues such as nationality and politics have been brought in to the arena of public discussion. In this ground-breaking account of the development of post-War sculpture Andrew Causey examines innovative and avant-garde works in relation to contemporary events, festivals, commissions, the marketplace, and the changing functions of museums. He explores the use of everyday objects and the importance of sculptural context, discussing figurative and non-figurative works, Anti-form, Minimalism, experimental form, Earth Art, landscape sculpture, installation, and Performance Art. The holistic picture of post-War sculpture which emerges establishes for the first time the key events and themes round which future debate will centre. From the pre-publication reviews: Andrew Causey weaves his way adroitly through the labyrinth of post-War sculpture ... No one else has charted the territory so comprehensively s Professor Stephen Bann, University of Kent at Canterbury stimulating and persuasive ... balances a searching analysis of the impact of institutional change, issues of sites and environment, and key critical debates with revealing commentaries on individual artists and works of art ... a discerning guide for anyone interested in contemporary art and culture. s Elizabeth Cowling, University of Edinburgh a clear guide to the various directions of sculpture and the work of sculptors in the years when modern sculpture has begun to stand in its own right as a major art form. s Sir Anthony Caro, Sculptor

World Politics since 1945 Apr 23 2022 "The most lucid, comprehensive, intelligent and reliable account of post-war modern history on the market." Teaching Politics "The book compels admiration for its thoroughness, its scope, the masterly ordering of its immense material." The Sunday Times The ninth edition of this enormously successful standard work has been expanded to take into account the developments of the last 10 years, including the wars in Iraq, Afghanistan, and Sudan; the accelerating emergence of India and China as major powers; the major political developments in Latin America, including the rise and perhaps fall of Chavez in Venezuela; the march of globalisation and the popular protest movements against; the expansion eastwards of the European Union; instability in the Middle East and the question of oil and energy supply. Marked throughout by Calvocoressi's characteristic erudition and elegance, World Politics since 1945 is essential reading for those who need to understand the great sweeps of contemporary history

The World Since 1945 Jul 26 2022 THE COMPLETE HISTORY OF GLOBAL CHANGE FROM 1945 TO THE PRESENT DAY The world since 1945 has witnessed fundamental changes, notably the increasing influence of the West - particularly the USA - in a variety of spheres, the emergence and collapse of the USSR, the end of colonial empire in Asia and Africa and the escalation of wars and other conflicts in the Third World. In this incisive survey T. E. Vadney examines the key events without ever neglecting the underlying trends. He explores therapid changes in the Middle East, the end of apartheid in South Africa and the aims of American foreign policy. He concludes with a new epilogue in which he examines the direction of post-1945 history as the world enters the twenty-first century.

These Yet to be United States Jan 08 2021 This book ... on postwar America ... looks at civil rights and civil liberties in tandem and does so over the past fifty years. It merges two historical approaches - of looking at America from the view of those in the highest seats of power and from the perspectives of those too often denied political and economic access. It shows that the civil rights movement was not just a southern movement but spanned the nation; not just a movement for African Americans but waged by other people of color, including Latinos and Native Americans as well as women of all races; and not just a struggle that began in the mid-1950s and ended in the mid-1960s. It was more varies ... more grassroots, and more broad than many other studies of the postwar period have shown. -Pref.

Themes in Modern European History Since 1945 May 24 2022 Twelve chapters consider the key political, cultural and economic changes of post-1945 Europe.

The World Since 1945 Nov 06 2020

International Relations Since 1945 Oct 29 2022 International Relations since 1945 is the most student-friendly guide to the history of international relations. In it, Young and Kent provide an accessible and comprehensive introduction to key developments in international relations across the world. Now in its third edition, the text has been thoroughly updated to include contemporary developments and includes a brand new concluding part: 'The Age of Uncertainty, 2011 - 2018'. New to the third edition are three chapters covering developments from the last decade. The first of these, 'Conflict and Chaos in the Middle East', describes the development of the War in Syria and the emergence of the so-called Islamic State. Young & Kent tackle Brexit and the Trump administration in a new chapter on 'Threats to the existing Global Order: Instability in the West'. The final new chapter details 'Challenges from the East' with an overview of Russia's unstable relationship with NATO, North Korea's nuclear ambitions, and China's new international economic rules under the leadership of Xi Jinping. International Relations Since 1945 is helpfully structured chronologically and by region, taking the reader through the tension of the Cold War and post-war decolonisation to the Vietnam War, The Detente Era, and the latest developments in Middle East politics. Furthermore, students are supported by helpful learning features including biographies of key figures and chronologies of events.

Rutgers Since 1945 Oct 05 2020 "Spans the period from World War II to the present during which Rutgers grew from two small, liberal arts colleges, an agricultural school, and an engineering school into a major public research university. We chronicle the remarkable story of Rutgers's rise as a research university, but also the way the school has been experienced by generations of students and residents of the state. The Cold War, the student protests of the 1960s and the 1970s, the rise of identity politics on campus, big-time athletics, and the various ways students have shaped and been affected by popular culture all play a part in this story. Three chapters cover chronologically the major changes that occurred at the university between 1945 and the present, bringing up to date the work done in Richard P. McCormick's, Rutgers, A Bicentennial History (1966). The remaining chapters provide snapshots of some of the key themes in the contemporary history of the school -- campus life and campus activism, the school's growing strength as a research institution, the impact of Title IX on opportunities for women student athletes, the school's public presence as reflected in such long-standing institutions as the University Press, the Glee Club, and undergraduate journalism. Rutgers current residence halls, which house more students than at any other college in the nation, are the subject of a imaginatively illustrated, architectural analysis While much of the focus of our study is on the New Brunswick/Piscataway campus, attention has been paid throughout to Camden and Newark as well"--

States and Nationalism in Europe Since 1945 Jul 14 2021 From the end of the Second World War until the recent break-up of the communist regimes, there has been a widespread assumption that the age of nationalism had passed and that nationalism was made up of a set of dangerous and disastrous ideas. States and Nationalism examines the ceaseless controversies surrounding the ideas of the nation and nationalism and shows that they are very far from dead in twenty-first century Europe. Beginning by defining these terms and setting out theories and concepts clearly and concisely, this book analyzes the impact of nationalism since the Second World War, covering themes that include the relationship of nationalism to the Cold War; the re-emergence of demands by stateless nations; European integration and globalization and their effects; immigration since the 1970s; the effects of nationalism on the former Soviet Union, Eastern Europe, and Yugoslavia.

Europe Since 1945 Jun 25 2022 Employing 286 scholars, this two volume encyclopedia contains entries on post-World War II European political history and groups, significant events and persons, the economy, religion, education, the arts, women's issues, writers, and more.

China and the World Since 1945 Nov 18 2021 The emergence of China as a dominant regional power with global influence is a significant phenomenon in the twenty-first century. Its origin could be traced back to 1949 when the Chinese Communist Party under Mao Zedong came to power and vowed to transform China and the world. After the 'century of humiliation', China was in constant search of a new identity on the world stage. From alliance with the Soviet Union in the 1950s, China normalized relations with America in the 1970s and embraced the global economy and the international community since the 1980s. This book examines China's changing relations with the two superpowers, Asian neighbours, Third World countries, and European powers. China and the World since 1945 offers an overview of China's involvement in the Korean War, the Sino-Soviet split, Sino-American rapprochement, the end of the Cold War, and globalization. It assess the roles of security, ideology, and domestic politics in Chinese foreign policy and provides a synthesis of the latest archival-based research on China's diplomatic history and Cold War international history This engaging new study examines the rise of China from a long-term historical perspective and will be essential to students of Chinese history and contemporary international relations.

American Film and Society Since 1945 Oct 25 2019 Although films rarely act as mirror reflections of everyday reality, they are, nevertheless, powerful cultural expressions of the dreams and desires of the American public. In the third edition of their seminal work, Leonard Quart and Albert Auster provide a complete post-World War II survey of American cinema and its often complex and contradictory values. No other work provides such an exhaustive and rigorous account of this parallel history of the United States, and the breadth and depth of this latest edition will hold appeal for scholars, students, and general readers alike.

Canada Since 1945 Jan 28 2020 Reviews Canada's post-war history and recounts how Canadians strove for prosperity, international respectability, and a more vigorous national culture

US Economic History Since 1945 Feb 21 2022 Since 1945 the US economy has evolved from an expanding consumer society in which affluence was more widely distributed than ever before. Mike French's volume examines the principal economic developments and social changes in the US since 1945, including those in business, regional dynamics, protest movements, and population distribution. Social movements based on the civil rights demands of African-Americans, ethnic minorities, and women are also examined. The elements of continuity to pre-1945 trends and the points of departure, notably in the post-1970 period, are discussed to provide a more complete examination than previously available.

War Since 1945 Oct 17 2021

America and the Imperialism of Ignorance May 12 2021 An analysis of six decades of American foreign policy, focusing particularly on the Cold War and the Middle East.

Postwar Dec 07 2020 Tony Judt decided to write *Postwar* in 1989, the year the collapse of the Soviet Union provided European history with a rare example of a clearly-signposted 'end of an era'. It's scarcely surprising, then, that the great virtue of Judt's book is the clarity and the breadth of its account of postwar Europe. His book coalesces around one central theme: the idea that the whole of the history of this period can be explained as an unravelling of the consequences of World War II. A bold claim, but Judt's exceptional ability to create strong, well-structured, inclusive arguments allows him to pull it off convincingly. Judt's work is also a fine example of creative thinking, in that he excels in connecting things together in new and interesting ways. This virtue extends from his unusual ability to combine the best elements of the Anglo-American and the French historiographical traditions - the latter informing his strong interest in the importance of cultural history - to his unwillingness to allow himself to be constrained by historical category and ultimately to his linguistic abilities. *Postwar* is, above all, a triumph of integration, something that is only made possible by its author's flair for creating strong, persuasive arguments.

Postwar Aug 27 2022 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year “Impressive . . . Mr. Judt writes with enormous authority.” —The Wall Street Journal “Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history.” —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. *Postwar* is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, *Postwar* is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

Britain Since 1945 Jan 20 2022 This is the sixth edition of what has become the standard textbook on contemporary British political history since the end of World War II. This authoritative chronological survey discusses domestic policy and politics in particular, but also covers external and international relations. The new and improved edition of this important book brings the picture to the present by including the following additions: ? September 11th ? the Iraq war and after ? the election of Iain Duncan Smith DS and Michael Howard as leaders of the Conservative party ? the issue of immigration ? the new royal wedding ? the 2005 election ? the importance of China on the British stage. *Britain since 1945* is essential reading for any student of contemporary British history and politics.

German Writing Since 1945 Feb 09 2021 Surveys postwar fiction, poetry, and drama in East and West Germany, Austria, and Switzerland

Europe Since 1945 Dec 27 2019 This highly successful book has now been fully updated to take account of events since 1990, including a very full coverage of the major consequences stemming from the breakup of the Soviet empire.

Greece since 1945 Mar 10 2021 The book draws extensively on research on modern Greece in recent decades, and on the many perceptive commentaries on recent events in the Greek press. It adopts both an analytical and chronological approach and shows how Greece has both converged with western Europe and remained distinctively Balkan. David Close writes clearly and forcefully, and presents a lively picture of the Greek political system, economic development, social changes and foreign relations. Aimed at readers coming to the subject for the first time, this is a readable and informative introduction to contemporary Greece.

The United States Since 1945 Sep 28 2022 Encompassing political, social, and cultural issues, this primary source reader allows students to hear the voices of the past, giving a richer understanding of American society since 1945. Comprises over 50 documents, which incorporate political, social, and cultural history and encompass the viewpoints of ordinary people as well a variety of leaders An extended introduction explains to students how to think and work like historians by using primary sources Includes both written texts and photographs Headnotes contextualize the documents and questions encourage students to engage critically with the sources

World Food Security Aug 03 2020 This book is the first comprehensive account of the numerous attempts made since the Second World War to provide food security for all. It provides a reference source for all those involved and interested in food security issues.

Japanese Education Since 1945 Mar 30 2020 This volume is a study of postwar Japanese education and includes major educational documents that shed new light on this important period and provide a guide to understanding the development of Japanese educational policy. Some of the documents are taken from records of the American occupation forces, while others are original translations from Japanese sources. Taken together, they provide documentary evidence of the development of Japanese education from a devastated system in 1945 to world class status today. While the collection is not intended to be exhaustive, it provides basic materials that are essential for understanding the development of the postwar Japanese education enterprise. Not only are the documents chosen for inclusion invaluable for research and teaching, they are suggestive of fruitful topics for further research.

France Since 1945 Dec 19 2021 The last fifty years of French history have seen immense challenges for the French: constructing a new European order, building a modern economy, searching for a stable political system. It has also been a time of anxiety and doubt. The French have had to come to terms with the legacy of the German Occupation, the loss of Empire, the political and social implications of the influx of foreign immigrants, the rise of Islam, the destruction of rural life, and the threat of Anglo-American culture to French language and civilization. Robert Gildea's account examines the French political system and France's role in the world from 1945 to 2000. He looks at France's attempt to recover national greatness after the Second World War, its attempt to deal with the fear of German resurgence by building the European Community, and its struggle to preserve its Empire. He also discusses the Algerian War and its legacy, and the later development of a neo-colonialism to preserve its influence in Africa and the Pacific. Gildea also examines the rise and fall of the two Republics, the rise of and fall of De Gaulle, and the revolution of 1968, along with topics such as the construction of the myth of the Resistance, the painful truths of French involvement in anti-Semitic persecution, and France's continuing obsession with national identity.

Britain and Europe since 1945 Jun 20 2019 This is a succinct, timely introduction to one of the most highly charged political questions which has dominated British politics since 1945: Britain's position in Europe. The study traces the evolution of British policy towards Europe since 1945, presenting the full international context as well as the impact on domestic party politics - including an analysis of the divisions in the Conservative Party under John Major.

War since 1945 Apr 11 2021 Most writing on modern warfare begins with the French Revolutionary Wars and continues through World Wars I and II, giving post-1945 conflicts only a cursory glance through the lens of Cold War politics. Distinguished military historian Jeremy Black corrects that imbalance with *War since 1945*, a comprehensive look at the many large- and small-scale wars fought around the world in the past sixty years. Black argues strenuously that, in order fully to understand recent warfare, we must discard the Cold War narrative that has until now framed the majority of historical inquiry. By treating conflicts—especially those in and between developing nations—on their own terms, he is able to bring proper attention to the wide varieties of force structures, methods, goals, and military cultures that have been employed in post-World War II battles. Rather than recapitulate the familiar assessments that consider improvements in weaponry or increases in the size of armies without adequately weighing the wider context of their uses in specific wars, Black presents an account of warfare that focuses on the actual tasks the military is ordered to undertake. His global coverage of warfare is unparalleled, and his insistence on the centrality of developing nations to this period of military history brings new knowledge to bear on understudied aspects of recent history. Black brings the book up to date with considerations of the current "war on terror" and the U.S.-led war in Iraq. Timely and accessible, *War since 1945* will be essential to anyone who wants to understand the state of warfare in the present day.

Uneven Ground Sep 23 2019 Appalachia has played a complex and often contradictory role in the unfolding of American history. Created by urban journalists in the years following the Civil War, the idea of Appalachia provided a counterpoint to emerging definitions of progress. Early-twentieth-century critics of modernity saw the region as a remnant of frontier life, a reflection of simpler times that should be preserved and protected. However, supporters of development and of the growth of material production, consumption, and technology decried what they perceived as the isolation and backwardness of the place and sought to "uplift" the mountain people through education and industrialization. Ronald D Eller has worked with local leaders, state policymakers, and national planners to translate the lessons of private industrial-development history into public policy affecting the region. In *Uneven Ground: Appalachia since 1945*, Eller examines the politics of development in Appalachia since World War II with an eye toward exploring the idea of progress as it has evolved in modern America. Appalachia's struggle to overcome poverty, to live in harmony with the land, and to respect the diversity of cultures and the value of community is also an American story. In the end, Eller concludes, "Appalachia was not different from the rest of America; it was in fact a mirror of what the nation was becoming."

Decolonisation Nov 25 2019 "This new Seminar Study provides an overview of the process of British decolonisation. The eclipse of the British empire has, of course, been one of the central features of postwar international history. At the end of the Second World War it still spanned the globe and yet by the mid-1960s most of Britain's major dependencies had achieved legal independence. Concisely and accessibly, Nicholas White introduces students to this often dramatic story of colonial wars and emergencies, and fraught international relations."--BOOK JACKET.

Urban Planning Theory Since 1945 Jul 02 2020 Following the Second World War, modern systems of urban and regional planning were established in Britain and most other developed countries. In this book, Nigel Taylor describes the changes in planning thought which have taken place since then. He outlines the main theories of planning, from the traditional view of urban planning as an exercise in physical design, to the systems and rational process views of planning of the 1960s; from Marxist accounts of the role of planning in capitalist society in the 1970s, to theories about planning implementation, and more recent views of planning as a form of `communicative action`.

The World Since 1945 Mar 22 2022 A masterly synthesis of the history of the contemporary world, *The World Since 1945* offers the ideal introduction to the events of the period between the end of the Second World War and the present day. P. M. H. Bell and Mark Gilbert balance a clear narrative with in-depth analysis to guide the reader through the aftermath of the Second World War, the Cold War, decolonization, Détente and the Arab-Israeli Conflict, up to the on-going ethnic strife and political instability of the 21st century. The new edition has been thoroughly revised to fully reflect developments in the history and historiography of the post-war world, and features five new chapters on the post-Cold War world, covering topics including: - The rise and fall of American hegemony - The decline of Europe - The rise of Asia - Political Islam as a global force - The role of human rights *The World Since 1945* challenges us to better understand what happened and why in the post-war period and shows the ways in which the past continues to exercise a profound influence on the present. It is essential reading for any student of contemporary history.

Britain's Conservative Right since 1945 Aug 23 2019 ***Winner of the Political Studies Association Conservatism Studies Group prize 2020*** This book provides a detailed analysis of the evolution of the Conservative Right in Great Britain since 1945. It first explores the movement's core ideas and highlights points of tension between its different strands. The book then proceeds with a thematically structured discussion. The Conservative Right's views on the decline and fall of the British Empire, immigration control, European integration, the British constitution, the territorial integrity of the United Kingdom, Britain's economy, the welfare state, and social morality and social change are all explored. In the concluding chapter, the author evaluates the extent to which the Conservative Right has succeeded in its core objectives since 1945 and addresses how it can best respond to a contemporary Britain in which it instinctively feels uncomfortable. The book is based on extensive elite interviews and archival research and will be of interest to anyone who seeks to place the contemporary Conservative Right in a greater historical context.

The US Marine Corps since 1945 Jul 22 2019 Lee E Russell utilises his expert knowledge to guide us through the post-WWII history of the Marines, chronicling their involvement in Korea, Vietnam, Lebanon and Grenada. The account includes such remarkable exploits as the gruelling

Chosin Reservoir campaign, which proved a supreme test of courage and discipline with the Marines isolated and overwhelmingly outnumbered in an inhospitable terrain where temperatures reached as low as -35F at night they nevertheless emerged unbeaten and the siege of Khe Sanh during the Vietnam conflict, providing a comprehensive overview of the history, organisation, appearance and equipment of these famous troops

A Companion to Contemporary Design since 1945 Feb 27 2020 A critical overview of contemporary design and its place within the broader context of art history A Companion to Contemporary Design since 1945 introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century, design history, design methods, design studies and more recently, design thinking. The book delivers a thoughtful overview of all design disciplines and also strives to stimulate inter-disciplinary debate and examine unconsidered convergences among design applications in different fields. By offering a new perspective on design, the articles assembled here present a challenging account of the boundaries between design history and its cognate disciplines, especially art history. The volume comprises five sections—Time, Place, Space, Objects and Audiences—that discuss environments for design and how we interact with designed objects and spaces. Notable features include: 24 new essays reflecting the current state of design history and theory, and examining developments on a global basis Contributions by eminent scholars and practitioners from around the globe Enriched throughout with illustrations A Companion to Contemporary Design since 1945 provides a new and thought-provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history, theory and practice, and in related fields.

The Archipelago Aug 15 2021 'An enjoyable, highly readable history that manages to bring murky, often fiendishly complex events into the light' Sunday Times Italy emerged from the Second World War in ruins. Divided, invaded and economically broken, it was a nation that some people claimed had ceased to exist. And yet, as rural society disappeared almost overnight, by the 1960s, it could boast the fastest-growing economy in the world. In *The Archipelago*, historian John Foot chronicles Italy's tumultuous history from the post-war period to the present day. From the silent assimilation of fascists into society after 1945 to the artistic peak of neorealist cinema, he examines both the corrupt and celebrated sides of the country. While often portrayed as a failed state on the margins of Europe, Italy has instead been at the centre of innovation and change - a political laboratory. This new history tells the fascinating story of a country always marked by scandal but with the constant ability to re-invent itself. Comprising original research and lively insights, *The Archipelago* chronicles the crises and modernisations of more than seventy years of post-war Italy, from its fields, factories, squares and housing estates to Rome's political intrigue.

The History of the Social Sciences since 1945 Jun 13 2021 This compact volume covers the main developments in the social sciences since the Second World War. Chapters on economics, human geography, political science, psychology, social anthropology, and sociology will interest anyone wanting short, accessible histories of those disciplines, all written by experts in the relevant field; they will also make it easy for readers to make comparisons between disciplines. A final chapter proposes a blueprint for a history of the social sciences as a whole. Whereas most of the existing literature considers the social sciences in isolation from one other, this volume shows that they have much in common; for example, they have responded to common problems using overlapping methods, and cross-disciplinary activities have been widespread.

Moving on Sep 16 2021 A comprehensive narrative survey of US History since WWII, this text focuses on the public life of the American people. It weaves together political, economic, foreign policy, and military history, while incorporating much of the new social, demographic, environmental, and cultural history of the period.
