One Last Lunch Jun 12 2021 In this heartwarming essay collection, dozens of authors, actors, artists and others imagine one last lunch with someone they cherished. A few years ago, Erica Heller realized how universal the longing is for one more moment with a lost loved one. It could be a parent, a sibling, a mentor, or a friend, but who wouldn't love the opportunity to sit down, break bread, and just talk? Who wouldn't jump at the chance to ask those unasked questions, or share those unvoiced feelings? In *One Last Lunch*, Heller has asked friends and family of authors, artists, musicians, comedians, actors, and others, to recount one such fantastic repast. Muffie Meyer and her documentary subject Little Edie Beale go to a deli in Montreal. Kirk Douglas asks his father what he thought of him becoming an actor. Sara Moulton dines with her friend Julia Child. The Anglican priest George Pitcher has lunch with Jesus. And Heller herself connects with her father, the renowned author Joseph Heller. These richly imagined stories are endlessly

revealing, about the subject, the writer, the passage of time, regret, gratitude, and the power of enduring love.

The Book of L Jul 13 2021 This book is dedicated to Aristid

Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other

areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Medical Anthropology Aug 26 2022 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

The Fama Portfolio May 11 2021 Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection

where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance."

The Last Suppers Jul 21 2019 Set in 1950s Louisiana, Mandy Mikulencak's beautifully written and emotionally moving novel evokes both *The Help* and *Dead Man Walking* with the story of an unforgettable woman whose quest to provide meals for death row prisoners leads her into the secrets of her own past. Many children have grown up in the shadow of Louisiana's Greenmount State Penitentiary. Most of them—sons and daughters of corrections officers and staff—left as soon as they could. Yet Ginny Polk chose to come back to work as a prison cook. She knows the harsh reality of life within those walls—the cries of

men being beaten, the lines of shuffling inmates chained together. Yet she has never seen them as monsters, not even those sentenced to execution. That's why Ginny has taken on a special responsibility: preparing their last meals. Pot roast or red beans and rice, coconut cake or pork neck stew . . . whatever the men ask for Ginny prepares, even meeting with their heartbroken relatives to get each recipe just right. The prison board frowns upon the ritual, as does Roscoe Simms, Greenmount's Warden. Her daddy's best friend before he was murdered, Roscoe has always watched out for Ginny, and their friendship has evolved into something deep and unexpected. But when Ginny stumbles upon information about the man executed for killing her father, it leads to a series of dark and painful revelations. Truth, justice, mercy—none of these are as simple as Ginny once believed. And the most shocking crimes may not be the ones committed out of anger or greed, but the sacrifices we make for love. "A haunting study of race relations, compassion, and mystery. A must read." —Library Journal (Starred Review)
